How To Make A Round Robin Schedule

Probably the easiest method for arranging a round robin is the rotation method. Below is the round robin schedule for 4 teams through 11 teams. To determine the total number of games for a single bracket, the formula $\frac{N \times (N-1)}{2}$ is used.

With a bracket of six teams, the calculation would be: $\frac{6 \times (6-1)}{2}$ or $\frac{6 \times 5}{2}$ or $\frac{30}{2} = 15$ games.
